

Why e-proCAT?

The Software for Electronic
B2B Catalogs & Classification

What's in it for you?

- ✓ Quicker at processing and checking electronic catalogs than its competitors
- ✓ Effortless reading of very large electronic catalogs
- ✓ supports all standard classifications: ECLASS, ETIM, UNSPSC, GPC
- ✓ Supports product exchange formats such as: GS1 XML, IDEA XML, Datanorm, FAB-DIS, DPB data management, SAP Ariba CIF
- ✓ Very flexible application of BMEcat versions/ derivatives, as well as all ETIM versions in particular
- ✓ Machine learning applied to classification
- ✓ Internal classifications can be imported and used to classify products
- ✓ dedicated image data management = MIME management
- ✓ Simple creation of product data sheets
- ✓ Export generator, for creating additional exchange formats
- ✓ Option to create your own catalog check rules to check catalog content (including validation protocol as Excel file)
